

Team Rules

Ladders are placed so they are 20' apart. Since each base goes 2' out from its ladder, this makes the bases 16' apart. Each player gets 3 bolos, all with the same color golf balls. Players toss their bolos at the ladder, trying to land them on one of the three rungs.

Scoring: The top rung is worth 3 points. The middle rung is worth 2 points. The bottom rung is worth 1 point. Players alternate each throwing the bolo, one at a time.

Bonus Points: If you land each of the three bolos on different rungs (as shown in figure #1), you get one bonus point; so you get 7 points total. If you land all three bolos on the same rung (as shown in figure #2), you also get one bonus point. So the best round is to land all three bolos on the top rung; this gets you 3 points for each bolo, plus the bonus point, for a total of 10 points.

The Game, 4 Players:

We will be playing as two teams, two on each team. One player from Team 1 goes first, then one player from Team 2, until all six bolos have been thrown. Score is awarded for each team.

Play resumes from other ladder with second members of teams 1 and 2. Players need to remember to alternate who goes first each round. A game is whichever team reaches 21+ first.

It's legal to knock other teams bolos off the ladder. Only bolos remaining on the rungs count for points.

This will be a double elimination tournament.
